

## Awareness Home Funding

Awareness Home Funding is a unique home lender that has real solutions for your home and your heart. We work with you to understand your home loan throughout the entire process and beyond. How? First, we offer proven options for Conventional, FHA, VA and Rural Development home loans. No gimmicks or the latest fad loans. Second, we are not paid based on a commission. We work for you. This keeps us focused on what really matters – you and what's best for your needs. We handle your personal transactions as if they were our own. Third, Awareness Home Funding offers very competitive rates and fees with respect for your right to be informed and treated fairly.

Perhaps our biggest difference is that our company is based on the concept of giving back to the communities we serve in Michigan, Indiana, Kansas, Tennessee and Florida. We call our program *Awareness Works 4 U*. Through it, we are proud to donate \$250 to a non-profit organization of your choice when your loan is closed. In addition to helping our borrowers find a loan fit exactly to their needs, we help support the charitable organizations that make a community strong. We believe in being a part of your life and that a home loan company should be supporting our communities because we choose to, not just to meet government criteria. If you have the need for a home loan, we can help you and your favorite charity. This program applies to all our home loan programs, purchase or refinance. What a simple way to make your support for a favorite organization have more impact.

Contact us today and find out for yourself how our approach can benefit you.
