

## Awareness Home Funding

Awareness Home Funding is a unique home lender with real solutions for your home and your heart. We help you understand your home loan throughout the entire process and beyond. No gimmicks, fads or even commissions – just a focus on you and your needs. Not to mention competitive rates and fees with respect for your right to be treated fairly.

Perhaps our biggest difference is how we give back to the communities we serve. We call our program *Awareness Works 4 U*. Through it, we are proud to donate \$250 to a non-profit organization of your choice when your loan is closed. We help support the charitable organizations that make a community strong. Let us help you and your favorite charity.

Contact us today and find out for yourself how our approach can benefit you.
